are made using the Interbank rate.. It should be used as a reference only Instructions: Enter the amount of US Dollar to be
converted in the box to the left.. How and where to exchange currency?. To change from US Dollar (foreign) to another
currency, just click on the currency name in the box to the left.. Choose the home currency by clicking on the currency name in
the box to the right.. Retail spreads (the difference between the bid and ask prices) for smaller amounts are not reflected in
these interbank prices since they vary among payment systems, countries and banks.. The value X% varies from 1 to 10% or
even more and depends on many factors Examples:1 - ATMs typically add 2 percent;2 - Credit cards typically add 2 to 3
percent;3 - Banks and foreign exchange kiosks add around 5%;4 - Some Internet based foreign currency exchange agencies add
11 percent or even more.

For these retail rates use this formula:Value you will pay = value you get in this converter + X% (due to the margin for the cost of the exchange services).. Consumers may use these rates as a reference only To obtain actual retail rates, contact your local financial institution or currency exchange.
